INDEX TO VOLUME I, OF THE JOHNS HOPKINS HOSPITAL BULLETIN.

Abbott, Alexander C., Bacteriological study of hail, 56;—Milk as a culture medium for the tubercle bacillus, 61;—Typhoid fever organisms and lower animals, 63;—Water supply and epidemics, 55;—Hygiene (Journal Club), 13, 23, 38, 62, 63; Hygiene and bacteriology (Journal Club) 63, 98.
Abscess of liver, 97.
Admissions, discharges and deaths by sex and age, white (table), 81;—colored (table), 87.
Admissions, discharges, deaths, and number remaining, white (table), 82;—colored (table) 87.
American medical classics, 116.
American Pædiatric Society, 15.
Amœba coli in dysentery, 53, 91;—in liver abscess, 97.
Aneurism (miliary) of a branch of the gastric artery, 12;—thoracic, 47;—of the aorta, 114.
Ankylosis, cicatricial jaw, 111.
Annual of Universal Medical Sciences, 91 (Review).
Antipyrin, physiological action of, 50.
Aortic insufficiency, 109.
Aphasia, 48.
Appendicitis, 59.
Arsenical pigmentation, 22.
Athetosis, 59.
Atkinson, I. Edmondson, Filaria sanguinis hominis, 48.
Bacteriological study of hail, 56.
Bacteriology, Vol. IV of Annual of Universal Medical Sciences, 91 (Review).
Bigelow, Henry J., 102.
Billings, John S., Rare medical books, 29;—Lectures on sewage disposal, 44.
Blood clot, organization of, 112.
Bond, Summerfield B., Genito-urinary surgery (Journal Club), 24.
Booker, William D., Stomach washing in children, 69;—Diseases of children (Journal Club), 23;—Fissure of the anus, 113;—Leukemia (?), 113;—Enlarged spleen, 114;—Enlarged liver, 115.
Books, notes on new, 24, 31, 52, 58, 74, 91, 95;—Rare medical, 29, 116;—Recent medical publications, 45.
Breast, amputation of, 59.
Bright's disease in cows, 59.
Brockway, Frederick J., Bilateral dislocation of jaw, 59;—Compound depressed fracture of skull, 21;—Radical cure of hernia, 21;—Thiersch's skin grafting, 36;—General surgery (Journal Club), 13, 38.
Bronchiectasis (general) of left lung, 109.
Bronchitis, fœtid, 109.
Brown, George William, 100.
Brown, James, Genito-urinary surgery (Journal Club), 13.
Buckler, Thomas H., Dermatology (Journal Club) 24.
Carcinoma of uterus, 47;—of vulva, 59;—of uterus with nephritis, 112.
Chloralamide, 32.
Chorea, hereditary, 110.
Cooking, instruction in invalid, 108.
Councilman, William T., Acute Bright's disease in cows, 59;—Atypical epithelial growths, 20;—Miliary aneurism of a branch of the gastric artery, 12;—Primary tumor of pancreas, 51;—Pathology (Journal Club), 13.
Cullingworth, Charles J., Manual of Nursing, 31 (Review).
Dermatology (Journal Club) 13, 24.
Diplococcus pneumoniae, 73.
Diseases of children (Journal Club), 23.
Dislocation of jaw, bilateral, 59.
Dispensary statistics, 89.
Ehrlich's test in typhoid fever, 93.
Elbow, crush of, 112.
Electric apparatus used in nervous diagnosis, 75.
Epithelial growths, atypical, 20.
Epithelioma of penis, 97.
Epispadias, 59.
Esophoria and squint, cured by glasses, 41.
Eye, foreign bodies removed, 21;—Mild solutions of corrosive sublimate in keratitis, 46;—Squint and esophoria cured by glasses, 41;—Use of fluoresceïn to diagnose lesions of cornea, 43;—Tenotomy for insufficiencies of the ocular muscles, 110.
Farr, William W., Gynecology, etc. (Journal Club), 98.
Filaria sanguinis hominis, 48.
Fissure of the anus, 113.
Fluoresceïn as a means of diagnosing lesions of the cornea, 43.
Foreign bodies removed from the eye, 21.
Fowler, James K., Dictionary of Practical Medicine, 95 (Review).
Fracture of hip, ununited, 62;—of skull, compound, depressed, 21.
Gangrene, multiple, 12.
General medicine (Journal Club), 13, 38, 62, 63, 98, 107.
General surgery (Journal Club), 13, 38, 62, 98, 107.
Genito-urinary surgery (Journal Club), 13, 24.
Ghriskey, A. L., Gynecology, etc. (Journal Club), 98.
Goodhart, James F., Guide to the Diseases of Children, 31 (Review).
Gould, George M., New Medical Dictionary, 58 (Review).
Gynecological department opened, 15.
Gynecological diseases, white (table), 86;—colored (table) 89.
Gynecology (Journal Club), 13, 24, 38, 63, 98.
Halsted, William S., Amputation of breast, 59;—Appendicitis, 59;—Epispadias, 59;—Healing of wounds under moist blood scab, 46, 59;—Intestinal obstruction, 59;—Radical cure of hernia, 12, 59, 112;—Reflex nerve manifestations cured by operation, 35;—Skin-grafting, 62, 112;—Tuberculosis of elbow, 62;—Tuberculosis of shoulder, 62;—Ununited fracture of hip, 62;—Cicatricial jaw ankylosis, 111;—Tumor of undescended testicle, 113;—Crush of elbow, 112;—Organization of blood clot, 112.
Hamilton, D. J., Text-book of Pathology, 74 (Review).
Hampton, Miss Isabel A., The aims of the Training School, 6;—Instruction in invalid cooking, 108.
Hartwell, Edward M., Mechano-therapy in Sweden and Germany, 60.
Healing of wounds under moist blood scab, 46, 59.
Heart disease, congenital, 34;—Sudden deaths from, 34.
Hemorrhage, fatal, into a large bronchocele, 23.
Hernia, radical cure, 12, 21, 59, 112;—scrotal, 97.
Hoch, August, Physiological action of antipyrin, 50;—Hysteria with paroxysmal inspiratory spasms, 115;—Neurology (Journal Club), 107.
Hog cholera, its causation, 9.
Hurd, Henry M., Relation of the Training School to the Hospital, 7;—Report of the Johns Hopkins Hospital, 77.
Hydrosalpinx, 112.
Hygiene, instruction in, 3, 33;—Recent literature on, 31, 91;—(Journal Club), 13, 23, 38, 62, 63.
Hygiene and bacteriology (Journal Club), 63, 98.
Hysteria with paroxysmal inspiratory spasms, 115.
Hysteromyomectomy, 96.
Hysterorrhaphy, 17.
In Memoriam, Henry J. Bigelow, 102;—George W. Brown, 100;—Richard von Volkmann, 20.
Instruction, courses of, 1, 20, 65, 78;—Hours of, 27, 99;—in hygiene, 2, 33, 67;—Lectures to nurses, 39, 79;—in pathology and bacteriology, 1, 65;—in medicine, 2, 66;—in surgery, 2, 66;—in gynecology, 2, 66;—in psychiatry, 3, 67;—Lectures, 107;—Invalid cooking, 108.
Intestinal obstruction, 59.
Johns Hopkins' letter to the Trustees, 4.
Johns Hopkins Hospital, Description of, 4;—Ground plan, 5;—Journal Club, 13, 15, 23, 27, 38, 62, 80, 98, 99, 107;—Medical Society, 12, 15, 21, 27, 34, 46, 59, 80, 96, 99, 109;—Historical Club, 116;—Officers, 14, 90;—Publications, 16, 28, 40, 64, 76, 80, 92, 98;—Report, 77.
Kelly, Howard A., Carcinoma of uterus, 47;—Fibro-cystic tumor of uterus, 47;—Fibroid uterus, 47;—Hysteromyomectomy, 96;—Hysterorrhaphy, 17;—Ligation of varicose ovarian veins, 23;—Miliary aneurism of a branch of the gastric artery, 12;—Multilocular ovarian tumor, 47;—Radical cure of hernia, 21;—Results of removal of ovaries and tubes, 57;—Submucous fibroid of the uterus, 22;—Tubercular peritonitis, 96; Early obstetrical literature, 116.
Keratitis, corrosive sublimate in treatment of, 46.
Koch's method of treating tuberculosis, 108.
Laceration of perineum and vaginal outlet, 105.
Lafleur, Henry A., Amœba coli in dysentery, 91;—Arsenical pigmentation, 22;—Perforative peritonitis, 62;—Thoracic aneurism, 47;—General medicine (Journal Club), 62, 63;—Tuberculosis of the lip, 114.
Lang, T., Die syphilis des herzens, 24 (Review).
Laryngology (Journal Club), 23, 38.
Leukemia, (?) 113.
Ligation of varicose ovarian veins, 23.

Liver, enlarged, 115.
Lupus vulgaris, 59.
Macalister, Alexander, Human Anatomy, 31 (Review).
Mackenzie, John N., Anomalies of the uvula, 22;—Tuberculosis of the lip, 113.
Malaria, Laveran's organisms in diagnosis, 11.
Maxwell, Theodore, and others, Terminologia medica polyglotta, 91 (Review).
Mechano-therapy in Sweden and Germany, 60.
Medical school fund, 103.
Medical diseases, white (table), 82;—colored (table), 87.
Milk as a culture medium for the tubercle bacillus, 61.
Mitchell, Weir, 64.
Morison, Robert B., Lupus vulgaris, 59;—Salicylic acid in dermatology, 42;—Dermatology (Journal Club), 13.
Nativity of patients admitted (table), 80.
Nephritis accompanying carcinoma uteri, 112.
Nerve, reflex manifestations cured by operation, 35.
Nervous system, electric apparatus used in diagnosis of diseases of, 75.
Neurology (Journal Club) 23, 38, 107.
Nurses' Home, opening of, 6.
Nurses' Training School, inauguration of, 6;—Lectures, 39, 79;—Regulations, 15, 79.
Obstetrical literature, early, 116.
Ocular muscles, tenotomy for insufficiency of, 110.
Occupation of patients (table), 81.
Osler, Wm., Amœba coli in dysentery, 53;—Amœba coli in liver abscess, 97;—Athetosis, 59;—Congenital heart disease, 34;—Fatal hemorrhage into a large bronchocele, 23;—Filaria sanguinis hominis, 48;—Laveran's organisms in malaria, 11;—Miliary aneurism of a branch of the gastric artery, 12, 12;—Multiple thrombi, multiple gangrene, 12;—Spastic diplegia, 59;—Weir Mitchell, 64;—General medicine (Journal Club), 13, 62;—Enlarged spleen, 115;—General bronchiectasis of left lung with foetid bronchitis, 109;—Hereditary chorea, 110;—Aortic insufficiency, 109;—Koch's method of treatment of tuberculosis, 108;—American medical classics, 116.
Ophthalmology (Journal Club), 13, 24, 62.
Otology (Journal Club), 23, 63.
Ovarian veins, ligation of, 23.
Ovaries and tubes, results of removal, 57.
Papilloma of penis, 97.
Paralytic valgus, 62.
Parasites, 72.
Parasitic bodies in epithelioma, 97.
Pathology (Journal Club), 13.
Perineum, laceration of, 105.
Peritonitis, perforative, 62.
Phippin, H., Scrotal hernia, 97;—General surgery (Journal Club), 107.
Pneumonia, acute croupous, 59.
Pre-ataxic tabes dorsalis with retained knee-jerk, 59.
Programmes of lectures, etc. (see Instruction).
Pulse, remarks on Mitchell's high tension, 62.
Randolph, Robert L., Mild solutions of corrosive sublimate in the treatment of keratitis, 46;—Use of fluorescein to diagnose lesions of cornea, 43;—Ophthalmology (Journal Club), 13, 24, 62;—Otology (Journal Club), 23, 63.
Reese, D. Meredith, Trichloracetic acid as a urine test, 33;—General medicine (Journal Club), 38, 98;—Aneurism of the aorta, 114.
Robb, Hunter, Submucous fibroid of the uterus, 22;—Modified Sims speculum, 97;—Gynecology (Journal Club), 13, 24, 38, 63, 98;—General medicine (Journal Club), 63;—Carcinoma uteri with nephritis, 112;—Hydrosalpinx, 112;—Laceration of the perineum, etc., 105.
Robinson, D. H., Latin Grammar of Pharmacy and Medicine, 95 (Review).
Roose, W. S., Surgery (Journal Club), 98.
Royal College of Physicians, Edinburgh, Laboratory Reports, 24 (Review).
Salicylic acid in dermatology, 42.
Salomonsen, C. J., Bacteriological Technology for Physicians, 52 (Review).
Schedule of hours of medical instruction, 27, 99.
Scott, J. Allison, Mitchell's high-tension pulse, 62;—General medicine (Journal Club), 63.
Sée, Germain, Traite des Maladies du Cœur, 24 (Review).
Sewage disposal, 44.
Simon, Charles E., Abscess of liver, 97;—Aphasia, 48;—Ehrlich's test in typhoid fever, 93;—Physiological action of antipyrin, 50;—Neurology (Journal Club) 38.
Sims speculum modified, 97.
Skin-grafting, Thiersch's, 36, 62, 112.
Spastic diplegia, 59.
Spleen, enlarged, 114.
Squint and esophoria, cured by glasses, 41.
Statistical tables, 6, 80.
Sterling, William, Outlines of Practical Histology, 91 (Review).
Sternberg, George M., Treatment of yellow fever, 68.
Stomach washing in children, 69.
Students enrolled, 99.
Surgical diseases, white (table) 84;—colored (table) 88.
Taylor, Frederick, Manual of the Practice of Medicine, 95 (Review).
Testicle (undescended) tumor of, 113.
Theobald, Samuel, Foreign bodies removed from the eye, 21;—Squint and esophoria cured by glasses, 41;—Tenotomy for insufficiencies of the ocular muscles, 110.
Thomas, Henry M., Electric apparatus used in nervous diagnosis, 75;—Neurology (Journal Club) 23.
Thrombi, multiple, 12.
Toulmin, Harry, Chloralamide, 32;—Tuberculosis in an infant of four months, 21;—General medicine (Journal Club), 63, 107.
Trichloracetic acid as a urine test, 33.
Tubercle bacillus, milk as a culture medium for, 61.
Tubercular peritonitis, 96.
Tuberculosis in an infant of four months, 21;—of elbow, 62;—of shoulder, 62;—of the lip, 113;—Koch's method, 108.
Tumor (fibro-cystic) of uterus, 47.
Tumor of pancreas, primary, 51;—of undescended testicle, 113.
Typhoid fever, Ehrlich's test, 93;—Organisms of, in lower animals, 63.
Uterus, fibroid, 47, 59;—Submucous fibroid, 22.
Uvula, anomalies of, 22.
Vaginal outlet, laceration of, 105.
Ventilation, influence of, on floating organisms, 13.
Von Volkmann, Richard, 20.
Warfield, Mactier, Laryngology (Journal Club), 23, 38.
Water supply and epidemics, 55.
Welch, William H., Acute croupous pneumonia, 59;—Animal parasites, 72;—Appendicitis, 59;—Causation of hog cholera, 9;—Diplococcus pneumoniæ, 73;—Epithelioma of penis, 97;—Miliary aneurism of a branch of the gastric artery, 12;—Multiple thrombi, multiple gangrene, 12;—Papilloma of penis, 97;—Pathology in its relations to general biology, 25;—Sudden deaths from cardiac disease, 34;—Hydrosalpinx, 113;—Tuberculosis of the lip, 114;—Value of historical studies, 116.
White, W. Hale, Text-book of General Therapeutics, 24 (Review).
Wilks, Samuel, and Walter Moxon, Lectures on Pathological Anatomy, 24 (Review).
Yellow fever, treatment of, 68.

CONTENTS OF BULLETIN No. 9, DECEMBER, 1890.

PAGE.
Laceration of the Perineum and Vaginal Outlet—Repair of the Recent Tear. By H. Robb, - - - - - - - - - - - - - - 105
Announcement of Lectures, - - - - - - - - - - - - - 107
Instruction in Invalid Cooking. By Isabel A. Hampton, - - - - - - 108
Preliminary Note on Koch's Method of Treatment of Tuberculosis. By W. Osler, 108
Proceedings of Societies:
Hospital Journal Club, - - - - - - - - - - - - - - 107
Hospital Medical Society. - - - - - - - - - - - - - 109-116
Aortic Insufficiency, Bronchiectasis of Left Lung, Hereditary Chorea [Dr. Osler];—Tenotomy for Insufficiencies of the Ocular Muscles [Dr. Theobald];—Exhibition of Surgical Cases [Dr. Halsted];—Presentation of Specimens [Dr. Robb];—Fissure of the Anus [Dr. Booker];—Tuberculosis of the Lip [Dr. Mackenzie];—Aneurism of the Aorta [Dr. Reese];—Exhibition of Cases [Dr. Booker];—Hysteria with Paroxysmal Inspiratory Spasms [Dr. Hoch].
Hospital Historical Club, - - - - - - - - - - - - - 116
